

Collaboration & Feedback Report

David Bauch

2025-12-10

Feedback Given

- **Ideas/Pitches:**

- ▶ During class I met with others and gave them feedback on their ideas. I mostly recommend Cloudflare to Isaac and some other friends in class.

- **Status Updates:**

- ▶ When we met for class I reported my progress and listened to others report their progress.

- **Questions Answered:**

- ▶ I answered design questions and shared what I had done to solve that problem. Most of my advice was to use Cloudflare.

- **Final Presentations:**

- ▶ I listened to people present and asked clarifying questions to better understand the product/solution/problem and shared thoughts on additional features.

Active Listening

How did you demonstrate active listening?

- Asked clarifying questions during presentations.
 - Summarized key points to confirm understanding.
 - Addressed concerns that people brought up.
-

I enjoyed collaborating with everyone on their ideas and my ideas. I learned a lot about the general problems we face when starting a new project and trying to get all the pieces working together.
